PROFESSIONAL SUMMARY

Computer Science undergraduate with knowledge of Java, Python, SQL, DSA, OOP, and DBMS, focused on software engineering, problem-solving, and building reliable applications.

EDUCATION

Bachelor of Technology in Computer Science, ***GLA University, Mathura, 7.1/10*** 2027
Intermediate, St. Francis Academy, Auraiya, ***79%*** 2023
High School, St. Francis Academy, Auraiya, ***92%*** 2021

INTERNSHIP/ TRAINING EXPERIENCE

Job Oriented Value-Added Course, GLA University, Mathura | CERTIFICATE June 2025 – July 2025

Trainee | tkohinoor.github.io/Kollab

- Gained hands-on experience in frontend web development, building interactive and responsive web interfaces using HTML, CSS, and JavaScript.
- Developed "Kollab", a team collaboration tool featuring project organization and task management, applying JavaScript and Firebase during practical training.

PROJECTS

Agile Project Management and Collaboration System | MERN Stack | github.com/tKohinoor/apmcs

- Developing a web-based project management system for sprint planning, task assignment, and progress tracking using the MERN stack.
- Building a responsive React interface and REST APIs to support project workflows and collaboration.

Akshar - Digital Library | Android, Capacitor | github.com/tKohinoor/akshar

- Developed a responsive, reader-focused digital library using React and Vite, enabling users to browse books, navigate chapters, and read Markdown-based content.
- Integrated Capacitor to support Android deployment, implemented persistent user preferences, and automated book catalogue generation using Python..

Daily Journal Application | HTML, CSS, JavaScript | tkohinoor.github.io/daily-journal

- Built a browser-based journaling application supporting CRUD operations for creating, viewing, editing, and deleting journal entries.
- Implemented Local Storage for persistence across browser sessions and developed a responsive interface using HTML, CSS, and JavaScript.

SKILLS

Programming Languages: Java, Python, JavaScript, SQL
Web Development: HTML5, CSS3, DOM Manipulation, Responsive Design
Core CS & Databases: DSA, OOP, DBMS, Operating Systems, MySQL, MongoDB
Tools & Emerging Technologies: Git, GitHub, VS Code, Generative AI Tools, Prompting Basics
Professional Skills: Problem-Solving, Teamwork, Communication, Adaptability, Time Management

PROFESSIONAL ACHIEVEMENTS/ CERTIFICATES

- **DSA to Development: Basic Guide** | Geeks for Geeks | LINK
  - Completed foundational training in data structures, algorithms, and software development concepts.
- **Software Engineering** | HackerRank | LINK
  - Demonstrated understanding of software engineering fundamentals and development practices.

CO-CURRICULAR ACTIVITIES

- Founded and led **While(True)**, driving technical event planning, coding initiatives, and student outreach to strengthen campus engagement and promote collaborative learning.
- Coordinated **SRIJAN**, GLA University's cultural fest across three years, contributing to event execution and cross-functional coordination.
